

APPROXIMATE PRODUCTION QUANTITIES

Garlic – Enough for medium consumption. 60 bulbs with 12 cloves each per ¼ tank planted

Silverbeets – Pick for 8-12 months once grown

Leeks & Spring Onions – 1 line once grown to size = 2 months picking

Radish – Pick in 2-3 weeks. Fast crop

Broccoli – 10 plants. Can harvest once main head has grown. Generally 2 ½ months to maturity, then can cut off main head then pick side shoots for 2 ½ months

Kale – Pick leaves for 8 months once grown
